Built-in		-

1) A+++ (highest efficiency) to D (lowest efficiency).

2) Weighted annual energy consumption in kWh per year based on 220 standard washing cycles for cotton programmes at 60°C and 40°C full and partial load, and the consumption of the low-power modes.
Actual energy consumption will depend on how the appliance is used.

3) Weighted annual water consumption in litres per year based on 220 standard washing cycles for cotton programmes at 60°C and 40°C at full and partial load.
Actual water consumption will depend on how the appliance is used.

4) G (lowest efficiency) to A (highest efficiency)

5) The standard 60°C cotton programme and the standard 40°C cotton programme are the standard washing programmes.
These programmes are suitable to clean normally soiled cotton laundry and that they are the most efficient programmes in terms of combined energy and water consumption.

The device meets the European standards and directives in the current version at delivery::
